

RAPITYPES

ADVANCED MANUFACTURING SUPPORT

SUPPORT ACTIVITIES /

ASSEMBLY

Rapitypes has 22,000 sq ft of flexible production space that can be organised to accommodate individual assembly requirements for large or small batch production. We are happy to source components on your behalf and also to manufacture parts and

assemblies for you. We offer part-built sub assemblies for JIT delivery, and we can provide all the graphics and packaging design, including stillage and transit protection systems.

In addition to our dedicated test facility Rapitypes can provide the complete assembly solution...

Small Batch Production

Ultrasonic welding, pad printing, labelling, bagging, boxing, delivery

Product Assembly

Fabrication, metal fixings, riveting, welding, product identification.

Electronic Assembly

Clean room facility, electronic design and manufacture, soldering, testing.

Finishing

For Special Finishing please see our Surface Finishing data sheet.
