

RAPITYPES

ADVANCED MANUFACTURING SUPPORT

ACTIVITIES /

SHEET METAL AND METAL FABRICATION

Rapitypes can assist with one-off or batch production mild steel, stainless steel and aluminium metal fabrications. We specialise in chassis fabrication and complex enclosures, and we are happy to provide the entire suite of parts for any project. Rapitypes can also offer design engineering assistance especially where plastics parts meet metal components. And finally, we provide a complete finishing service which includes a wealth of surface treatments, wet painting, powder coating, and metal plating of all types.

- Tube bending
- Welding
- Punching
- Bending
- Stamping
- Pressings
- Laser cutting
- Folding
